## **Bradford Business Seminar:**

### The Good, the Bad and the Ugly of Cyber

In the first of a series of business seminars jointly hosted by Packetts, and Chadwick Lawrence LLP we will discuss the dangers of cybercrime and offer potential solutions from an insurance and legal perspective.

We are delighted to have secured the service of Gary Hibberd, one of the leading authorities on Cyber Crime in the UK. Gary, who's interest in Cyber Crime began after watching the film War Games as a youth and will in his own words discuss:

*"The dark places on the web where cyber criminals are waiting for you. Have you ever wondered just how big Cyber space is and what is REALLY going on out there? Who are the criminals? Who are they targeting and what are the real dangers? Our breakfast seminar will shine a light on these darker recesses of the internet and help you see what is really going on 'out there.' What you find there may just surprise you."*

Hosted at the 1911 suite at Bradford City delegates will be provided with a free breakfast with views of the grounds, whilst having an opportunity to question the speakers and network with fellow delegates.
